WELCOME!

Hi, I'm Paolo Ciccone, an Italian-born portrait artist living in Charleston, and my passion is to create great art that features you!

Classic black and white portraits have a timeless and elegant quality that sets them apart from color photographs.

While color photography is common, black-and-white images have a certain depth and richness that can't be achieved otherwise.

Today, 90 years after they were made, we still look at the glory of classic Hollywood portraits.

Those images from long ago captivate and mesmerize people today, the proof that great art is forever. I have spent years understanding and bringing to the 21st century the classic Hollywood portraits so that you can enjoy being in a timeless, stunning portrait designed to celebrate you.
